## Keynote Proposal · Faith Edition

# “**Ravens & Algorithms:** Unlocking Fearless Leadership in the Age of AI”

## Abstract

Soon nobody in your church will be able to tell what’s real just by looking. So who will they trust? Chris has walked senior teams, from a global missions organization to founders ready to fire half their staff at 2 a.m., through one question: what do we do with AI? He names the two fears running most believers right now, shows exactly where AI’s power stops, and gives every person in the room a 90-second rhythm for the next new tool, headline, or hard call. Clear-eyed about the technology, calm about the hype, and full of hope: God isn’t pacing in heaven.

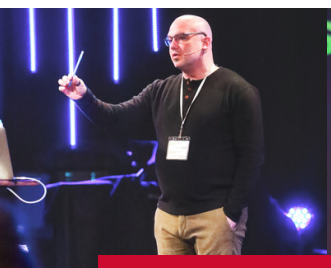
> “The God Designed CODE was a game-changer—it helped me understand myself and my team, gave clear action steps for growth, and put us years ahead of the learning curve.”
>
> — Scott Flora, Founder & CEO, EMI

> “Chris is one of the most professional and passionate leaders I know. The strategy he delivered transformed Kilns College and enabled us to reach students worldwide.”
>
> — Jerry Shultz, Extended Learning Dean, Central Oregon College

> “When you need a speaker who can address the whole of a business—culture, technology, marketing, operations—put Chris Behnke on your short list. I recommend him highly to anyone ready to expand reach and bottom-line revenue.”
>
> — Robert Ricciardelli, Founder, Converging Zone Network

## Learning Objectives

- Name which AI fear is steering you—freeze or fling—and the question that breaks it.
- Flip the 80/20: ask God before you analyze, because AI can’t reach revelation.
- Run Pause, Pivot, Advance: a 90-second rhythm for any new tool or hard call.

## Audience Fit


Pastors and ministry teams, faith-driven founders and executives, marketplace ministry gatherings, and parents navigating AI at home.
